## Obtain S/TARS

- **Situation/Task**
  - What was the situation? The why.
- **Action**
  - What did the person do?
- **Result**
  - What effect(s) did the person's actions have?

Your Goal Is To Obtain Good Examples Of Past Behavior

- Weigh the S/TAR by considering **similarity, impact, and recency.**

# “Behavioral Evidence”

- “Past performance in similar circumstances is the best predictor of future performance.:
- The most important prep work you can do is determine the requirements of the job and then plan how you can prove you meet those requirements by giving examples of your accomplishments.
- “Can you prove it....”

# Humor Resources

Marc Tyler Nebleman

**“If I had actually done even half the things on my résumé,  
I would have had a pretty impressive and fulfilling life.”**

# Successful Interviews

- Match the dimensions (knowledge/skill, behavioral and motivational) of the applicant to the dimensions needed for job success.
- The quality of information that you provided is determined by the three things:
  - Similarity
  - Recency
  - Impact

# Beyond “Candlepower”

- The “Want To” – “Motivational Fit”
  - **Location Fit:** Can you relocate, is the job worth leaving...
  - **Organizational Fit:** Does the job fit with you working style, values, desired physical environment...
