TVS INDIA INTERNSHIP

The TVS India Internship program, organized by the DCMME-GSCMI Center in conjunction with the TVS Motor Company, was developed in 2006. Providing a unique study abroad internship opportunity in Bangalore, India, this trip assists students in developing a global business perspective while enhancing their resume profiles. Participants have the distinctive opportunity to take concepts learned in the classroom and apply them to real life business situations, as well as explore the Indian culture. Projects cover many different management areas including Operations & Supply Chain Management, Human Resources Management, and Sales, & Management Information Systems, naming just a few. Work on this three credit course begins in mid-February and culminates with a three week visit to Bangalore, India in May where students work on their projects with TVS mentors and present their final work to TVS Company representatives. TVS is a Deming Prize winning two-wheeler manufacturing company producing motorcycles, scooters, and mopeds. Krannert alumnus Venu Srinivasan (MSM '77) is the chairman and managing director of TVS Motor Company.
