KRANNERT SCHOOL OF MANAGEMENT

COMBINED DEGREE PROGRAM

KRANNERT/MASTER OF BUSINESS

PROGRAM PROCESS

The Management/MBA Combined Degree Program will provide high-achieving students in the Krannert School of Management an opportunity to accelerate their education by earning their BS and MBA within five years of study. Qualified students in the Krannert School of Management will take three years of undergraduate coursework and two years of graduate classes.

Requirements to apply to the Management/MBA Combined Degree Program

The stand-alone Management degree requires a minimum of 124 credit hours for students on a pre-Fall 2014 plan of study and 120 credit hours for those beginning Fall 2014 and after. The stand-alone MBA degree requires a minimum of 60 credit hours which must be completed in four semesters.

- Completion of 108/112 credit hours of coursework by the end of the junior year, including completion of MAI Core Foundations courses; University Core requirements and international electives; upper division courses except for specified substitutions; concentration courses for Management, Accounting, Finance, Global Entrepreneurship, Global Supply Chain Management, Human Resource Management, and Marketing
- Minimum 3.7 GPA (3.5 with strong leadership and internship experience will be considered)
- Completion of at least one professional internship
- Demonstration of leadership potential through extra-curricular activities
- Have met with academic advisor and Debbi Bearden in the Krannert undergraduate advising office

The MBA and Master’s Programs office will hold callouts for students in their freshman, sophomore, and junior years to help them prepare for expectations into the program and to explain the admissions process. After meeting with Debbi Bearden, students should also set up a meeting with the Krannert Master’s Programs Office so their readiness to enter master-level coursework can be ascertained and credit hour requirements may be reviewed. The meetings are designed to guide students and help them with decision-making about the program. Students will complete the Graduate School application during their junior year and will receive notification of their admission decision with time to make plans for the coming year.

During the first year of the MBA program, no more than 12 graduate-level credits may be used to meet the final Bachelor’s degree requirements.
