

Class notes

PhD Alumni

1979

25TH ANNIVERSARY YEAR

Dennis Oberhelman was promoted to full professor at the University of South Carolina Moore School of Business in Columbia, SC. A member of the management science department, Oberhelman's research interests include statistics and econometrics.

2003

Wei-ru Chen was selected as a finalist for the best dissertation award in both the Business Policy and Strategy and the Technology and

Innovation Management divisions of the Academy of Management. Chen and Krannert Prof. Kent Miller, strategic management, recently co-published two articles in *Strategic Organization* and *Academy of Management Journal*.

Master's Alumni

1962

Chandler K. Coyle, MSIA, writes, "I took early retirement in 1998 ... and moved full-time to Steamboat Springs, CO. Skiing, golf, grandchildren, a little bit of management consulting ... and sitting on my deck enjoying the wonderful view of the Yampa Valley all keep me busy. Life is good!"

1965

Michael A. Goodman, MSIA, has published his second book, *Rasputin for Hire*, which offers insights and advice for those considering management consulting between jobs or as a second career. Before beginning his own career as a consultant, Goodman held senior marketing management positions at Procter & Gamble, Frito-Lay, and International Playtex.

1971

Lloyd "Reb" Gooding, MSM, writes, "I am now the president of Direction Associates Inc., which is an international consulting company that focuses on strategy develop-

ment, organizational alignment, business improvement, and the implementation of lean throughout the enterprise." Gooding and two of his company's principals – one of whom is a Purdue engineering graduate – recently published a book titled *Transforming Strategy into Success: How to Implement a Lean Management System*.

1972

David L. Molnar, MSM, writes, "I retired as manager, corporate immigration, for Ford Motor Co. after 30 years. I have established Visa & International Service Administration to apply my abilities in developing policy/compensation packages and administration systems for expatriates on assignment worldwide."

Tom Petska, MSM, has been elected a Fellow of the American Statistical Association (ASA), a distinction limited to no more than one-third of one percent of its membership. He also organized two sessions and co-authored two papers at last year's ASA conference in San Francisco. Petska is director of the Internal Revenue Service's Statistics of Income Division, the agency's \$40 million national statistics program.

1974

30TH ANNIVERSARY YEAR

Dennis Oberhelman, MSM. See PhD Alumni 1979.

1976

Paul Bobrowski, MSM, has been named dean of the Auburn University College of Business. His first priority will be private and public funding. "I think what's going to be the key to my success is to find new ways to connect with alumni and friends of the college and identify new friends," he says. Bobrowski previously served as associate dean of MBA programs at Syracuse University.

James D. Williams, MSM, recently published a book titled *The Case Study Reference Guide: A Straightforward Approach to Analyzing Marketing and Management Cases*. Williams is an associate

professor in the business-marketing department at Kutztown University of Pennsylvania.

1977

Gerardo Coindreau, MSIA, is now chief risk officer for Grupo Financiero Banorte, Mexico's fourth largest financial group. Previously the company's chief information officer, Coindreau is in charge of managing credit, market, liquidity, and operational risk, as well as risk policy. He and his wife, Cordelia, and their three sons live Monterrey, Mexico.

1978

Mark D. Brissman, MSIA, has been appointed vice president and chief actuary of Allmerica Financial Corp.'s lead companies, Citizens Insurance Company of America and the Hanover Insurance Company. Brissman previously was vice president and actuary in CNA Financial's Commercial Lines Division.

David Ford, MSIA, was promoted to president and COO of Keystone Helicopter in West Chester, PA. Ford joined the company in 1996, most recently serving as senior vice president, technical services. Keystone is one of the largest and oldest helicopter services companies in the U.S., operating a large technical services depot and completion center near Philadelphia.

1980

Sig Cornelius, MSM, has been named president of Global Gas, a new division of Houston, TX-based ConocoPhillips' Exploration and Production Segment. He previously was president of the company's U.S. Lower 48, Latin America, and Midstream Operations.

Richard A. Muirragui, MSM, has been promoted to vice president for cyber security and information assurance at ManTech Security Technologies Corp. in Bethesda, MD. The company's customers include the U.S. Department of State, the U.S. Department of Defense, and NASA. Muirragui writes that he is "having a great time!"

Tim Wesolowski, MSM, is now controller for Ameron International's Fiberglass-Composite Pipe Group, which manufactures products for transporting oil, chemicals, and

corrosive fluids. Wesolowski joined Ameron as a finance director in 2002 from Valspar Corp.

1984

20TH ANNIVERSARY YEAR

Debra S. Alexander, MSM, has been promoted to executive director for global compensation, leadership development, and organization and employee development at Delphi Corp. in Troy, MI. She previously was director of compensation, payroll, and systems.

1986

John P. Larson, MSM, announces the birth of his daughter, Mackenzie, on November 3, 2003. Larson writes that the new addition is "bringing joy" to him and his wife, Mary, and their two sons, Nicholas and Nathaniel.

Scott Sandefur, MSIR, is now director of human resources and employee relations for General Motors-Holden in Port Melbourne, Australia, where he is leading the negotiations of GM's 2004 Enterprise Bargaining Agreement. He writes, "My family is very excited about living in Australia and we plan on doing much traveling while on this assignment."

1987

Kevin Carlin Kennedy, MSM, is a pastor at St. Paul Catholic Church in Damascus, MD. He previously served as parish administrator at Our Lady of Mercy in Potomac, MD.

1990

Gregory T. Novak, MSM, has been promoted to president and chief operating officer at Harris Interactive in Rochester, NY. Novak has held several senior level positions since joining the company in 1999, most recently serving as president of U.S. operations. In his new role, he is responsible for delivery of all worldwide revenue and profit.

Jorge A. Romero-Day, MSIA, is now general director of Burns Philp in Puebla, Mexico, where he recently moved with his wife, Patricia, and three sons. Romero-Day previously worked as general manager of Consorcio Mathiesen in Buenos Aires, Argentina. He writes that he and his family are "very excited with

the new challenge." Burns Philp is a global yeast, food ingredients, and consumer-branded food products manufacturer.

1992

David D. Barley, MSM, vice president of strategic human resources at Countrywide Financial Corp. in Laguna Hills, CA, has been named to the board of the National Ovarian Cancer Coalition. Barley writes that he "continues to enjoy living in southern California."

Beth Meyer, MSM, is now executive director of Hands On Bay Area, a nonprofit organization in San Francisco, CA, that creates and promotes volunteer opportunities for individuals and community and corporate groups. Meyer previously was director of Community Impact, which merged with Hands On San Francisco to form the new organization.

1993

Marc Hochman, MSM (BSChE '88), was recently promoted to vice president, global operations, at A.T. Kearney Inc.'s Procurement Solutions Unit in New York, NY. He writes, "My business focuses on the use of technology to accelerate the strategic sourcing process and drive cost reductions to the bottom line faster."

1994

10TH ANNIVERSARY YEAR

Karen Cangas, MSM, and her husband, Jaime, have a new addition to their family — Mitchell James, born May 14, 2004. Cangas is a manager with Accenture LLP in Irving, TX.

Daren Cox, MSM, has been promoted to vice president, finance, for Holophane, a lighting division of Acuity Brands in Newark, OH. Cox previously was the company's director of financial planning and control.

Carol Franklin, MSM, has been promoted to executive vice president of research and development at Tollgrade Communications. Franklin joined Tollgrade in 2001 as general manager of software development. In her new role, she will be responsible for all software, hardware, and CATV engineering development at Tollgrade's Pennsylvania and Florida facilities.

Richard Gammans, MSM, has been named executive vice president, clinical research, at MediciNova Inc., a specialty pharmaceutical company in San Diego, CA. Gammans previously was executive vice president, research and development, at Incara Pharmaceuticals.

Brian L. Grosheider, MSM, was recently promoted to senior director of pricing at McLane Foodservice in Dallas, TX. He previously was the company's director of business analysis.

Lai Foon Lee, MSM, has been appointed to the newly created position of vice president, finance, at Neurogen Corp., a drug discovery and development company in Branford, CT. Prior to joining Neurogen, Lee was vice president and controller at eOne Global in Napa, CA.

Eric H. Strom, MSM, writes, "In March 2004 I rejoined IBM after a two-and-a-half-year break, this time in IBM Business Consulting Services-Public Sector. Part of the time while away from IBM, I worked with Lockheed Martin's team doing airport security infrastructure redesign." Strom, his wife, Sandra, and their two daughters live in Cary, NC.

1996

Grant M. Bauserman, MSIA, is the new general manager of Homogeneous Metals Inc. in Utica, NY. He has full profit and loss responsibility for the Pratt & Whitney subsidiary, which produces super-alloy powdered metals for aircraft engines. Bauserman previously was president and general manager of a Pratt & Whitney joint venture that manufactures new and repaired jet engine parts.

1997

Ken Lovell, MSM, has been promoted to vice president, research and development, for the PGA Tour in Ponte Vedra Beach, FL. He writes, "I'm working on a project that sounds more like something ... covered in a Krannert course. We deal with a large number of multinational corporations as sponsors and are trying to get a handle on how they organize themselves to manage their operations."

The road less traveled

When **Martin Madden** picked up his MBA degree from the Krannert School last spring, he didn't settle into a posh London investment bank office. He turned that job offer down.

Instead, he settled in Elkhart, Indiana, and began commuting to his new job on the American Axle & Manufacturing plant floor in Three Rivers, Michigan, where he is helping launch the axle for the new H3 Hummer, due out next spring.

"As corny as it sounds, I believe in America," Madden says. "I believe in our citizens. I believe in manufacturing. We just need to stop our hand wringing and do something about it. I'm jumping in feet first."

Madden, an Indianapolis native, was a straight-A MBA student who came to Krannert with a bachelor's degree in accounting, finance, and international business from Indiana University's Kelley School of Business. Madden also brought his CPA and Chartered Financial Analyst certifications and four years' experience with Big 4 accounting and consulting firm Deloitte and Touche LLP in Chicago.

"A lot of my previous experience is in finance and consulting, which is a great profession," he says. "However, my heart is in building and creating things, which is why my focus at Purdue was manufacturing technology management and strategy.

"American Axle was excited by my enthusiasm and my Purdue work at the Burton D. Morgan Center for Entrepreneurship, despite my lack of an engineering background. They are looking for people 'to make it happen.' Nowhere is that more necessary today than in manufacturing."

While earning his MBA, Madden served as the graduate assistant for Krannert Dean Richard A. Cosier, who is heading up Purdue's initiatives in entrepreneurship with Don Blewett. Cosier is director of the Burton D. Morgan Center for Entrepreneurship at Purdue's Discovery Park, and Blewett is associate director.

The co-founder, CEO, and chairman of the board of American Axle & Manufacturing, based in Detroit, Michigan, is Purdue alumnus Richard E. Dauch. Madden had an internship at American Axle last summer.

"A summer on the factory floor with the hourly associates sealed the deal for me," Madden says. "I've traded in my tassel loafers for work boots for a long time to come."

— Mike Lillich

1998

Darren P. Lehrich, MSM, is now managing director, healthcare equity research, for Piper Jaffray & Co. in New York, NY. He previously held a similar position with SunTrust Robinson Humphrey in New Jersey.

1999

5TH ANNIVERSARY YEAR

Andrew Greta, MSM, has been appointed to the newly created position of general manager, asset intelligence group, at General Electric. The business unit was formed to take advantage of the trucking industry's desire for cargo theft solutions, logistics productivity, and homeland security systems that track assets from point of origin to final destination. Greta previously was the business development manager in GE's Equipment Management and Financial Services Unit.

Anurag Shankar, MSM, writes, "I recently moved to Mumbai (Bombay, India) as business support manager in the office of chief operating officer of Standard Chartered Bank, India Region. In my current role, I work closely with the COO of the bank on company-wide strategic initiatives and projects."

2001

Hilari M. (Spring) Rinehart, MSM, writes, "I was remarried May 30, 2003, to David Rinehart, a field manager with Superior Water Company in Worcester, PA. I am very, very happy!" In addition, Rinehart was recently promoted to NLA claim operations manager at GMAC Mortgage Corp., where she is responsible for default claims and risk management.

Peter Thayer, MBA, has been named chief technology officer at XATA Corp., the leading provider of onboard fleet management systems for private fleet transportation. Before joining the Minneapolis, MN-based company, Thayer was vice president of engineering for MobileAria, a subsidiary of Delphi Corp.

2002

Michael A. Damson, MBA, married Emily A. Swaim (BSIM '97) in Indianapolis, IN, on August 23, 2003. Damson is a financial analyst with Anthem Inc.

Daniel P. Kerrigan, MBA, was recently promoted to financial planning analyst at Sonoco in Hartsville, SC. He is responsible for developing consolidated financial projections, assisting in acquisitions and divestitures, advising operating units on financial analysis, and overseeing annual and long-range financial plan processes.

2004

Osamu Fusaka, MBA, has been named sales manager at Ebara Corp. in Fujisawa, Japan.

Bachelor's Alumni

1967

Steve Edwards, BSIM, has been named chair of the Presbytery of Tampa Bay Youth Ministry Network, coordinating youth ministry for 77 churches in seven counties in the Tampa Bay, FL, area. He also continues to serve as director of youth ministries at Pasadena Presbyterian Church in St. Petersburg, FL.

1968

Stanley Calderon, BSIM, has come out of a brief retirement to take the helm of CIB Marine Bancshares Inc. in Chicago, IL, as president and CEO. Calderon ended a long career with Bank One in 2003, most recently serving as executive vice president and manager of middle market banking. He is also a member of Krannert's Dean's Advisory Council.

John Hicks, BSIM, received an honorary doctorate from the University of Alabama during its spring 2004 graduation program. Hicks serves as executive assistant to the chancellor and secretary of the board of trustees for the university, which he joined in 1979.

1969

35TH ANNIVERSARY YEAR

Ronald G. Kingen, BSIM, is now vice president-Americas manufacturing, for NACCO Materials Handling Group in Greenville, NC. Kingen has also been named a Fellow in the American Society for Quality, which he has served in the past as president and chairman of the board. Kingen's wife and two eldest daughters are Purdue graduates, and his youngest daughter is currently a junior.

1970

Richard A. Hedlund, BSIM, is now director de extensión for Universidad Modelo in Merida, Mexico. He previously was managing director of AM Businessmen Associates of Southeast Mexico.

David L. Molnar, BSIM. See Master's Alumni 1972.

1971

Karen L. Newman, BSIM, has been elected to serve on the board of directors of S&K Famous Brands Inc., a Richmond, VA-based retailer of menswear operating 240 stores in 27 states. Newman is dean of the Robins School of Business at the University of Richmond.

1974

30TH ANNIVERSARY YEAR

Vicky Bailey, BSIM, is a partner with Johnston & Associates LLC in Washington, D.C. She previously served as the assistant secretary of energy for policy and intergovernmental affairs at the U.S. Department of Energy, and was the president of PSI Energy Inc. in Indianapolis, IN.

Edward T. Bair, BSIM, is the U.S. Army's program executive officer for intelligence, electronic warfare, and sensors. He is responsible for executive leadership, oversight, direction, and total ownership cost for Army intelligence electronic warfare and sensors modernization strategies and program capabilities.

1975

Mitchell D. Mroz, BSIM, has been named to the board of directors of Cepheid, a developer, manufacturer, and marketer of genetic-assessment systems. Mroz is chairman of the board of Northrop Grumman's Federal Credit Union and retired vice president and general manager of its Automation and Information Systems Division.

1977

James D. Bremner, BSIM, has been named to the board of directors of Monroe Bancorp, the Bloomington, IN-based holding company of Monroe Bank. Bremner is president and CEO of Bremner & Wiley Inc., a healthcare facility development and management firm in Indianapolis.

1979

25TH ANNIVERSARY YEAR

Margaret "Marti" Asher, BSIM, writes, "I recently became a Certified Public Accountant and am a senior accountant at Gilliam, Coble & Moser LLP in Burlington, NC. My concentration is in corporate, non-profit, and employee benefit plan audits."

Michael J. Gialdini, BSM, has been promoted to vice president/executive consultant at NOP World Automotive Research & Consultants in Southfield, MI. Gialdini previously handled the market research firm's Ford Motor Co. account; he now oversees custom research for all original equipment manufacturer and supplier accounts.

Richard A. Muirragui, BSIM. See Master's Alumni 1980.

1980

Bruce H. Doelling, BSM, married Patricia A. Van Hook on June 19, 2004. Doelling is director of brewery sales for Ball Corp. in Broomfield, CO.

Tim Wesolowski, BSIM. See Master's Alumni 1980.

1982

Gregory J. Hayes, BSM, has been named vice president, accounting and control, at United Technologies Corp. (UTC) in Hartford, CT. Hayes joined UTC as vice president and controller in 1999 when it merged with Sunstrand Corp.

1983

Brent Prosser, BSIM, has been named a principal at Infomentis, a soft skills training company in Alpharetta, GA, offering consulting services, workshops, and Web-based collaborative tools. Prosser previously was vice president of sales and marketing for Premier International.

1984

20TH ANNIVERSARY YEAR

Scott Sandefur, BSM. See Master's Alumni 1986.

Jeffrey D. Sewell, BSM, has been appointed chief executive officer for Reliance Financial Services in Defiance, OH. Sewell joined Reliance in 1998, most recently serving as president and COO. The company provides services in the areas of

Grace and dignity

On his way to work the morning of July 15, 2002, **Earl Major**, MSHRM '90, learned over the car radio that Pfizer Inc. was acquiring his company, Pharmacia. His reaction? "I really had to try to keep the car on the road," he admits.

Major had just joined Pharmacia in Kalamazoo, Michigan, as a senior human resources manager after an 11-year career with Eli Lilly. He suddenly was in the middle of an uncertain situation, which came into focus with his next assignment.

"In April 2003, we made the announcement that we would be withdrawing the research and development functions from the Chicago Region. We were given the task of closing and/or reducing staffs at four Chicago Region sites, totaling more than 1,000 people," says Major, who was named the HR site leader for the project.

Major, who also earned a bachelor's degree from Purdue in industrial/organizational psychology, spent several days interviewing people within the

plant, trying to get a handle on the cultural dynamics of the site. He discovered that many of the workers were long-service employees who, over time, had developed a high degree of team orientation. As a result, his team established a strategy to close the site with a "collaborative and teamwork mindset," and with a guiding principle in place: every decision made would be done with grace and dignity in mind. "If it wasn't dignified and graceful, we didn't do it," he says. This approach also exemplified one of Pfizer's most cherished values: respect for people.

In addition to communicating the latest news and timelines to the affected workers, and providing for proper security of plant personnel and equipment, Major and his team focused on talent management and training. They helped some workers plan retirement, aided others to transfer to different sites within Pfizer, and supported those who desired to remain in the Chicago area. They also gave workers basic lessons on entrepreneurship and advised them how to communicate with their children about what the transitions would entail. "These initiatives enabled colleagues to transition with their heads held high," Major says.

Almost one year later, the remaining sites were closed without any major incidents, and Major returned to his family in Kalamazoo and his position as a human resources leader with Pfizer's Michigan Pharmaceutical Sciences division. Recently promoted to global human resources leader at Pfizer's research and development headquarters in Connecticut, he remains proud of the work his team did in Chicago.

"I would never want to go through it again, but I'm fortunate to work for a company that realizes how devastating this can be to a worker and his or her family," Major says. "I'll never forget the esprit de corps my team had and the way they worked toward a common goal. I believe we achieved a very difficult task with grace and dignity, and I'll always have good memories of how things came together."

— *Tim Newton*

asset management, personal trust, employee benefits, estate planning, and brokerage.

1988

Grant M. Bauserman, BSM. See Master's Alumni 1996.

1990

Daren Cox, BSM. See Master's Alumni 1994.

Brian L. Grosheider, BS (ACCT). See Master's Alumni 1994.

Jill Hand, BSIM, writes, "My husband, Jeff, and I welcomed our second child, Joshua Lee, on November 15, 2003." Hand is a senior environmental engineer with Nevamar Co. in Odenton, MD.

1991

Jeffrey R. Baumgarth, BSIM, is now vice president of The Myers Y. Cooper Company. He previously was the Ohio-based real estate company's director of development.

Jean E. Swartz, BSM, recently accepted a position as an admissions counselor with Shenandoah University in Winchester, VA. Her primary responsibility is to recruit students for the Harry F. Byrd School of Business. Swartz previously was associate director of Camp Horizons in Harrisonburg, VA.

1992

Sarah Donaldson-Schloss, BSM, and her husband, William, announce the arrival of their third daughter, Lauren Elizabeth, born April 22, 2004.

Andrew Greta, BS (ECON). See Master's Alumni 1999.

1993

Jennifer Vale-Eberle, BSM, and her husband, Marcel Eberle, announce the arrival of their son, Jack, born January 27, 2004. Vale-Eberle is a senior manager with Accenture LLP in Chicago, IL.

1994

10TH ANNIVERSARY YEAR

Dale R. Gerard, BS (ACCT), is now a treasury analyst with Wabash National Corp. in Lafayette, IN, and the proud father of three-year-old twins. He previously was a financial analyst with Great Lakes Chemical Corp. in West Lafayette.

1995

Christa Abare, BS (ACCT), and her husband, Patrick (OLS '94), announce the birth of a son on February 22, 2004. Abare is senior manager, financial accounting and reporting, at UnitedHealth Group in Hartford, CT.
