Open registration for Summer courses began February 28th. You can register in Scheduling Assistant using your Spring 2022 registration pin.

If taking courses through Purdue this summer, make sure to be aware of the add/drop dates for each module.

You should have received your Fall 2022 schedule by 5 pm on April 20th if you submitted your Course Request Form (CRF) by the April 11th deadline. Take a look at your schedule when it posts in myPurdue.

Open registration for Fall 2022 courses begins on April 21. Find your Time Ticket for Open Registration in myPurdue -- Registration Status.

May Commencement is scheduled for Saturday, May 14th. For updates on commencement visit the commencement website.

Final Exams will be held May 2nd - May 7th. Make sure to view your schedule of exam days and times and begin preparing. Check out resources such as the Academic Success Center for tips on preparing for exams.

**Congrats Graduates!**

Congratulations to the Krannert Class of 2022! We look forward to celebrating your accomplishments during commencement on May 14th. Additionally, Krannert is hosting a senior celebration on Monday, May 2nd in RAWLS 3011 from 1 pm - 3:30 pm. Check your Purdue email for an invitation.

**Dr. Charlene Sullivan Retirement Lecture**

Dr. Sullivan is retiring from Purdue this summer after 44 years of service and contributions to the School of Management. As the Associate Dean of Undergraduate Programs and Associate Professor of Management (Finance), she has made outstanding contributions. We look forward to celebrating her next chapter and showing our appreciation during her retirement lecture this Friday!

If you're interested in attending, the lecture will be Friday, April 22nd, from 3:30 pm - 4:30 pm in Fowler Hall (in the Stewart Center). If you have questions about the event, contact krannertalumni@purdue.edu.

Register here to attend.
FEATURED COURSE: “PROBLEM SOLVING IN THE BUSINESS WORLD” (MGMT 33200)

As you are making changes to your Fall 2022 schedule, consider asking your advisor about MGMT 332: Problem Solving in the Business World. This course, taught by instructor Dave Randich, engages students to work in cross-functional teams to analyze business problems, develop recommendations, and persuade decision makers through the presentation of compelling solutions. The class will target common yet complex opportunities faced by large businesses today.

In the classroom, students will work together to solve problems that are difficult for firms to outsource, and are usually solved in-house without the opportunity to engage consultants. Learning to solve these problems through the use of core business skills with real-world relevance will make Krannert students more valuable to employers. The last several weeks of class will include an on-site project for a commercial client, giving students real business experience and an opportunity for professional integration.

Please note: This course can be taken as an elective or to fulfill your ENGL 420 (Business Writing) requirement if you still need to complete it.

CAMPUS RESOURCE FOR CONNECTION - THE LBGTQ CENTER!

The Lesbian, Gay, Bisexual, Transgender, and Queer (LGBTQ) Center provides programming that engages the entire Purdue University campus and community on LGBTQ issues through:

- An exciting calendar of events
- A distinguished lecture series
- Advocacy for equitable access and a discrimination-free environment
- Facilitation of a variety of training opportunities throughout the year
  - Learn more about Safe Zone and Trans Inclusion trainings here.

Located in Room 230 of the Schleman Hall of Student Services (SCHL) and open to visitors Monday-Friday 8:00am-5:00pm. The LGBTQ Center is a dedicated Safe Zone that provides a welcoming and affirming location on campus for all, regardless of sexual orientation and gender identity or expression.

Check out the LGBTQ website for to find out more and to learn about what resources are offered.

CareerBound Corner: Competencies of the Month

Spring semester is in full swing and we have saved the best for last! This month’s two competencies are Leadership and Technology! Technology makes it possible for leaders to stay in touch with their employees and complete projects without being in the same location. Effective leaders must keep up with the pace of the ever-changing world of technology and employees must to adapt to their business’ upgraded systems.

CareerBound Tip: Use a task manager to help you stay organized AND use the app on your cell phone!

CareerBound is a career readiness program focusing on class of 2025, with plans to expand to all of Krannert students in coming years. For more information on CareerBound events and news, Follow CareerBound on Instagram @iamcareerbond or email careerbound@purdue.edu.

Look for the below icons in the CareerBound app to complete activities and make progress toward developing your skills!
Consider a Concentration

Last month we reviewed available Purdue minors, and the considerations for adding a minor to your Plan of Study. Similar to a minor, concentrations are an opportunity unique to Krannert students and an excellent way to boost your knowledge and skills in an area related to business.

Only students with a declared Krannert major can choose a Krannert concentration to add to their plan. Most concentrations are 12 - 16 credit hours, and can help build skills in data analysis, information systems or consulting. A concentration is a great way to explore another area outside of your major within Krannert, and build marketable skills to demonstrate on your resume when applying for internships, full-time jobs or graduate school.

If you have questions about a concentration, reach out to your advisor over email or schedule an appointment to discuss the requirements and how a concentration can help support your goals. While there is no required pairing of majors and concentrations, some popular options are Marketing and Data Analytics, General Management and Management Consulting, and Accounting and Finance.

FINALS WEEK SELF-CARE TIPS:

Finals week can be a time of added stressors and pressure. While preparing for exams and succeeding academically is important, try your best to keep a balanced perspective and care for yourself leading up to finals and throughout the week of exams. Consider the below tips for self-care during finals week.

- Have a self-care plan and a study plan in place before finals week
- Set mini, realistic goals for each day
- Be mindful of your nutrition – choose healthy options, limit caffeine and sugar
- Take a walk outside
- Make plans with your friend(s)
- Call a family member or friend
- Write, draw or color
- Unplug from technology
- Set sleep goals, get up early enough to not rush
- Reward yourself – set small rewards as you complete things throughout the week

If you're concerned about your well-being or the well-being of a friend, reach out to your advisor for help getting connected to resources.

RESOURCES FOR MODIFYING YOUR FALL 2022 SCHEDULE:

When making changes to your Fall 2022 schedule, be sure to consult with your advisor before dropping a course or making changes. See the below how-to videos for common questions:

- How to find your timeticket (when you can make schedule changes)
- How to request an override in Scheduling Assistant
- How to view and resolve holds (if you're unable to make schedule changes, you most likely have a registration hold)
- How to add yourself to the waitlist for a course
- How to register for courses
