INTERNATIONAL INTERNSHIPS

A valuable, often overlooked experience, international internships provide the opportunity for students to engage in a real-life global work experience, which a domestic internship often can't provide. Internship possibilities depend on your major and the familiarity you have had in those areas. You are not required to have prior work experience or be experts in your field. Plus, the internship will be conducted in English, removing any language barriers. International internships are unpaid and for academic credit. You'll take a course in conjunction with your internship at a small-to-medium sized company.

TYLER WALTER
BUENOS AIRES, ARGENTINA
ECONOMICS, CLASS OF 2021

"I was afraid to sign-up initially, and it took quite a while to finally make the decision to go abroad. However, I realized immediately as the program began that I made the right choice. It might make you uncomfortable to travel such long distances and meet new challenges, but they make you a much stronger person and someone who has a different view of the world."
